

## Day Zero Sunday August 13<sup>th</sup> 2023

13:30 – 16:00 An introduction to Overdiagnosis / How to spot Overdiagnosis - Early to Mid-Career Research Group Workshop  
 Venue: Panum, Copenhagen University. Blegdamsvej 3B, 2200 Copenhagen, Denmark  
**FULL** - Please send an expression of interest for the waiting list to Emma Gram at [emma.gram@sund.ku.dk](mailto:emma.gram@sund.ku.dk)

## Day One Monday August 14<sup>th</sup> 2023

08:30 – 09:00 Registration / Badge Collection - Coffee & Poster installation

08:45 – 09:15 Welcome & introduction to Preventing Overdiagnosis 2023

09:15 – 10:45 KN Session One - **Incentives, drivers and causes of overdiagnosis**  
 Chair - John Brodersen  
[Natalie Armstrong](#) - [Alexandra Brandt Ryborg Jønsson](#) - [Brooke Nickel](#)

10:45 – 11:15 Refreshment Break

11:15 – 12:45	<b>Workshop</b> Clinical skills for avoiding overdiagnosis - <b>Stefan Hjörleifsson</b>	<b>Workshop</b> Time Needed to Treat (TNT) – can understanding clinician time as a finite resource help curb overdiagnosis? - <b>Minna Johansson</b>	<b>Workshop</b> Minding the Harms: A Brain Imaging & Overdiagnosis Workshop - <b>Diana Withrow</b>	<b>Workshop</b> Living guideline for “Protection against Over- and Underuse of Healthcare” of the German College of General Practitioners and Family Physicians (DEGAM) and the implementation of recommendations - <b>Martin Scherer</b>	<b>Workshop</b> Preventing overdiagnosis in the clinical consultation – practical training of the three part consultation model - <b>Josabeth Hultberg &amp; Oskar Lindfors</b>	<b>Workshop</b> Optimizing overdiagnosis education for medical students - <b>Sadaf Ekhlās</b>
---------------	--	---	---	--	--	--

12:45 – 14:30	Lunch – with a mentor					
13:30 – 14:30	<p><b>Seminar</b></p> <p>Diagnostic Culture and the Sociology of diagnosis panel: Autism as our case study - <b>Ginny Russell</b></p>	<p><b>Seminar</b></p> <p>Addressing uncertainty, fears and beliefs that drive and bolster low-value care - <b>Leti van Bodegom</b></p>	<p><b>Seminar</b></p> <p>How behavioural interactions with the patient affects overdiagnosing - and how to prevent it - <b>Olle Wadström</b></p>	<p><b>Seminar</b></p> <p>Preventing medical overactivity: sustainable health care powered by Core values - <b>Johann Agust Sigurdsson</b></p>	<p><b>Seminar</b></p> <p>Methodological approaches to assess cancer overdiagnosis outside of organised screening programmes - <b>Brian Nicholson &amp; Jason Oke</b></p>	<p><b>Seminar</b></p> <p>Data as symptom: Doctors' responses to patient-generated data in general practice and the potential risks of Overdiagnosis - <b>Christoffer Bjerre Haase</b></p>
14:30 – 16:00	<p><b>ABSTRACTS</b> <b>Incentives, drivers and causes</b></p> <p>Direct-to-consumer advertising: A modifiable driver of overdiagnosis and overtreatment - <b>David Menkes</b></p> <p>Conflict of interest policies at Australian medical schools - <b>Ashleigh Hooimeyer</b></p> <p>Understanding GP perspectives on diagnostic tests for children: a qualitative interview study - <b>Elizabeth Thomas</b></p>	<p><b>ABSTRACTS</b> <b>Clinical solutions</b></p> <p>Variation in decision-making to perform subacromial decompression surgery for subacromial pain syndrome. A case-vignette study among orthopedic shoulder surgeons - <b>Leti van Bodegom</b></p> <p>Continuous pulse oximetry monitoring in children with acute respiratory illness: a potential overused without benefits - <b>Marc Rhainds</b></p>	<p><b>ABSTRACTS</b> <b>Consumer testing / Other</b></p> <p>Same risk, varied perception: effect of presentation formats for direct-to-consumer genetic testing results on perceived risk and behavioral intentions among South Korean adults - <b>Soyun Kim</b></p> <p>Overdiagnosis of atrial fibrillation through the use of the consumer-facing smartphone applications - <b>Sadaf Ekhlas</b></p>	<p><b>ABSTRACTS</b> <b>Communicating about Overdiagnosis</b></p> <p>Messaging for reducing over-screening of breast cancer in older women - <b>Nancy Schoenborn</b></p> <p>iHealthFacts- the health fact-checking website for the public that enhances critical thinking about health claims - <b>Paula Byrne</b></p> <p>Do doctors know about overdiagnosis and how do they deal with it?</p>	<p><b>ABSTRACTS</b> <b>Overdefinition</b></p> <p>The Effect of Screening-Induced Surge in Video-Assisted Thoracoscopic Surgery on Population Late-Stage Lung Cancer Incidence - <b>Wayne Gao</b></p> <p>Global Incidence of Sudden Cardiac Arrest and Electrocardiogram screening in Athletes and Military Members: A systematic Review and Meta-Analysis - <b>Aaron Lear</b></p>	<p><b>ABSTRACTS</b> <b>Other</b></p> <p>Clinical governance of unwarranted variation in hospital care – findings from a regional audit in Norway - <b>Ole Tjomsland</b></p> <p>How are we managing opioid overuse in chronic non-cancer pain: A participatory project - <b>Helena Bentué Jiménez</b></p> <p>Adequacy of clinical guideline recommendations for patients with low-risk cancer managed with monitoring: Systematic review - <b>Kiana Collins</b></p>

	<p>Global Burden of Disease 2017 estimates for Major Depressive Disorder: a critical appraisal of the epidemiological evidence - <b>Rosanna Lyus</b></p> <p>Israeli Policymakers' Perspectives on Overuse, its Potential Harms and Main Drivers, in Musculoskeletal Physical Therapy: A Qualitative Study - <b>Alice Laykov Shemesh</b></p>	<p>Two Cheers for Choosing Wisely: A Consumer Perspective - <b>Dena Davis</b></p> <p>Sharpening the arrow: focusing risk prediction on faster growing breast cancers - <b>Yiwey Shieh</b></p> <p>De-medicalizing sleep: a strategy to identify and reduce zopiclone overprescription in primary care - <b>Sara Hansen</b></p>	<p>Acetaminophen (paracetamol) deprescribing in long-term care: case series from Edmonton, Canada - <b>Roni Kraut</b></p> <p>Models of care for non-specific low back pain: Do they improve quality of care? - <b>Sean Docking</b></p> <p>Low-value imaging: What is it and how extensive is the problem? - <b>Bjørn Hofmann</b></p>	<p>Qualitative research with doctors and health authorities responsible for organising screening programmes in Flanders - <b>Veerle Piessens</b></p> <p>Moral responsibility narratives in health promotion: examining ethical concerns and the relationship with Overdiagnosis - <b>George Gillett</b></p> <p>Using behavioural strategies to communicate risks and benefits of medical interventions: insights from the design of a cluster randomised trial in emergency care - <b>Gemma Altinger</b></p>	<p>How to avoid over-definition of diagnoses and expanding disease definitions by addressing treatment heterogeneity due to disease severity and linking diagnostic criteria to treatment responses - <b>Huw Llewelyn</b></p> <p>Is the Increase of the mental illness a result of sociopolitic influences - <b>Wolfgang Schneider</b></p>	<p>Routine Versus On-Demand Blood Sampling in Critically Ill Patients: A Systematic Review - <b>Carl J S Hjortsø</b></p> <p>Diagnosis and overdiagnosis in the medical curriculum - <b>Natalie Edmiston</b></p>
16:00 – 16:30	Refreshment Break					
16:30 – 18:00	<p>KN Session Two - <b>How does consumer testing and self-screening contribute to overdiagnosis</b></p> <p>Session attendees will be able to:</p> <ul style="list-style-type: none"> <li>• Identify how multi-cancer early detection tests for cancer that are being promoted to the public may contribute to overdiagnosis</li> <li>• Identify challenges to the development and clinical application of currently promoted screening tests for genetic and non-genetic risk factors for disease</li> </ul>					

	<ul style="list-style-type: none"> <li>Identify societal and cultural factors involved in the construction of a self-testing pathology market and how these increase (or mitigate) the risk of overdiagnosis</li> </ul> <p>Chairs - Barry Kramer and Emma Grundtvig Gram  <a href="#">Annette Plüddemann</a>- <a href="#">David Ransohoff</a>- <a href="#">Patti Shih</a></p>					
18:30	Welcome Reception – Copenhagen City Hall					
<b>Day Two Tuesday August 15<sup>th</sup> 2023</b>						
08:30 – 08:40	Registration / Badge Collection - Coffee					
08:40 – 09:00	Welcome and introduction to Day 2					
09:00 – 10:30	<p>KN Session Three - <b>Clinical solutions and decision making during consultation to mitigate overdiagnosis</b></p> <p>Session attendees will gain knowledge and deliberate on:</p> <ul style="list-style-type: none"> <li>How harms from overdiagnosis and overtreatment of risk factors and long-term conditions might be reduced by better informed evidence-based practice and shared decision-making.</li> <li>The overdiagnosis of depression in high-income societies may be mitigated by targeting clinical interventions and by deprescribing antidepressants</li> <li>consider how realistic is it for GPs to solve the problems that politics, marketing, and conflicts of interest cause - in 12 minutes, at least 20 times a day?</li> </ul> <p>Chair - John Brodersen  <a href="#">Julian Treadwell</a> - <a href="#">Christopher Dowrick</a> - <a href="#">Margaret McCartney</a></p>					
10:30 – 11:00	Refreshment Break					
11:00 – 12:30	<b>ABSTRACTS Incentives, drivers and causes</b>	<b>ABSTRACTS Clinical solutions</b>	<b>ABSTRACTS Overdefinition</b>	<b>ABSTRACTS ODx &amp; sustainability</b>	<b>ABSTRACTS Communicating about ODx</b>	<b>ABSTRACTS Other</b>

	<p>Disease Awareness Campaigns observed by WHO, Cochrane, and the US government: cross-sectional study of their content, funding and possible role in driving Overdiagnosis - <b>Loai Albarqouni</b></p> <p>Parables of prevention: science communication as a driver of surveillance and Overdiagnosis - <b>Olivia Spalletta &amp; Sara Green</b></p> <p>Primary care physicians' perspectives on low-value care and barriers to de-implementation: Survey in six high-income countries - <b>Aleksi Raudasoja</b></p> <p>Protocol for a co-designed randomised controlled trial of screening participant and health service impact of population-based breast density</p>	<p>The NHS Maternity Care Dilemma: Balancing the Need for Care Against the Risk of Overdiagnosis and Overtreatment - <b>Francesca Quattri</b></p> <p>Increasing the between testing interval to 365 days as guided by biological variation - <b>George Cembrowski</b></p> <p>Rethinking the diagnosis and subsequent management of obesity in children and adolescents through the lens of weight centrism and weight stigma - <b>Juan Victor Ariel Franco</b></p> <p>Hope, Medical Expenditures and Survival Among Advanced Cancer Patients - <b>Eric Andrew Finkelstein</b></p> <p>Evaluation of the Incremental Value of a Coronary Artery Calcium Score Beyond Traditional Cardiovascular Risk</p>	<p>Is gastroesophageal reflux disease overdiagnosed in infants in Denmark? - <b>Johanne Villars Jørgensen</b></p> <p>What are the long-term effects of overdiagnosing gastroesophageal reflux disease (GERD) in infants in Denmark? - <b>Asthildur Arnadottir</b></p> <p>Lowered Evidence Threshold for Screening Strategies as a Cause of Overdefinition - <b>Kenneth Lin</b></p> <p>Idiopathic bile acid diarrhea (I-BAD): The revelation of a large-scale disease or a new case of overdiagnosis? - <b>Søren Matthebjerg Dalsgaard-Hansen</b></p>	<p>Practice variation revisited – the contribution of primary care - <b>Eivind Meland</b></p> <p>Mapping the co-benefits of reducing low-value care and the environmental impacts of care: a literature analysis &amp; research agenda - <b>Gillian Parker</b></p> <p>Clinician and health service interventions to reduce the carbon footprint of health care: A systematic review - <b>Romi Haas</b></p> <p>The sooner the better: Rethinking the linear thinking from symptoms to cancer - <b>Christina Sadolin Damhus</b></p> <p>Improving Low Back Pain Management: The Enhanced Transtheoretical Model Intervention in Reducing Overdiagnosis - <b>Noa Ben Ami</b></p>	<p>What do Australians believe about diagnostic testing risks? A focus group study - <b>Tomas Rozbroj</b></p> <p>'Not just doing research, but following what research does': Autoethnographic reflections on my transformation from 'cancer patient' to 'overdiagnosed person' - <b>Elsbeth Davies</b></p> <p>Trends in use of the new MeSH term "Overdiagnosis" - A scoping review - <b>Emma Grundtvig Gram</b></p> <p>Providing women aged 70-74 years in Australia with the rationale for breast cancer screening cessation led to more informed decision-making: Results from a randomized trial - <b>Jenna Smith</b></p> <p>Development of the MOOC "Breast Cancer Screening – Informing women"</p>	<p>What can we do to reduce low-value imaging? - <b>Elin Kjelle</b></p> <p>Exploring the diagnostic process by analyzing adverse events and malpractice claims – how can data be relevant for preventing overdiagnosis as well as underdiagnosis? - <b>Charlotte Frenved</b></p> <p>Cancer Overdiagnosis Literature: A Brief History - <b>Natalie Nightingale</b></p> <p>Overview of Overdiagnosis: Mapping the current definitions of overdiagnosis to conceptually compare their different methodological usefulness - <b>Christoffer Haase</b></p> <p>Quantification of overdiagnosis in randomised trials of cancer screening: an overview and re-analysis of systematic reviews - <b>Frederik Martiny</b></p>
--	--	--	--	--	---	--

	<p>notification in Australia - <b>Brooke Nickel</b></p> <p>Preventing overuse of infant formula by examining biological background assumptions - <b>Bartosz Helfer</b></p>	<p>Assessment - <b>Katy Bell</b></p>			<p>by the independent Association Cancer Rose to train French health professionals - <b>Jean Doubovetzky</b></p>	
12:30 – 14:00	Lunch					
	Panel session - At What Cost: discussing challenges in conducting overdiagnosis research (12:45 – 13:45)					
14:00 – 15:30	<p><b>ABSTRACTS</b> <b>Clinical solutions</b></p> <p>What Influences Antibiotic Initiation? Developing a Scale to Measure Nursing Behaviour in Residential Aged-Care Facilities - <b>Saniya Singh</b></p> <p>From at-risk to multimorbidity - Options for diagnostic reviews and de-diagnosing? The interplay between medical technology, the social and cultural context and women's bodily</p>	<p><b>Workshop</b></p> <p>Challenges in publishing on ODx</p> <p>Moderator - <b>Christoffer Bjerre Haase</b></p> <p>Panel – <b>Katy Bell</b> <b>Juan Franco</b> <b>Rita Redberg</b></p>	<p><b>Workshop</b></p> <p>Overdiagnosis and end of life care: structural factors - <b>Ruth Groenhout</b></p>	<p><b>Workshop</b></p> <p>Guidelines for cardiovascular disease prevention: What's time got to do with it? - <b>Peder A. Halvorsen</b></p>	<p><b>Workshop</b></p> <p>Using an adapted version of the G-TRUST to reduce overuse and overdiagnosis through appropriate guideline selection - <b>René Wittmer</b></p>	<p><b>Workshop</b></p> <p>Estimating excess cancer deaths due to the disruption in screening during the Covid pandemic - <b>Jason Oke</b></p>

	<p>experiences - <b>Susanne Reventlow</b></p> <p>Are Evidence-based Guidelines doomed to produce OverDiagnoses? - <b>Jack Dowie</b></p> <p>Overdiagnosis in malignant melanoma: a scoping review of empirical evidence - <b>Mille Falk Bjørch</b></p> <p>Overdiagnosis of cow's milk allergy in children: causes and consequences - <b>Hilary Allen</b></p>					
15:30 – 16:00	Refreshment Break					
16:00 – 17:30	<p>KN Session Four - <b>Overdefinition: pre-disease a driver for overdiagnosis and expanding disease definition</b></p> <p>Chairs - Thomas Kühlein and Martin Scherer  <a href="#">Svend Brinkmann</a> - <a href="#">Ana Paula Pires dos Santos</a> - <a href="#">Timothy Wilt</a></p>					
17:30 – 18:00	The Lisa Schwartz lecture					
19:00	Dinner at <a href="#">Molkes Palae</a> Dronningens Tvaergrade 2, 1302 Kobenhavn_- <a href="#">BOOKING OPEN</a>					
<b>Day Three Wednesday August 16<sup>th</sup> 2023</b>						
08:00 – 08:40	Registration / Badge Collection - Coffee					

08:40 – 09:00	Welcome and introduction to Day 3					
09:00 – 10:30	<p>KN Session Five - <b>Overdiagnosis and sustainability of healthcare for patients, clinicians, communities and the planet</b></p> <p>Most healthcare extends lives and reduces suffering. But the way we currently practice medicine is unsustainable for patients, clinicians, health systems, societies, and the planet. In this keynote session, world-leading experts will discuss what we do in medicine through a lens of sustainability from a wide range of perspectives, including:</p> <ul style="list-style-type: none"> <li>• how the carbon footprint of healthcare can be estimated and used to push for reform initiatives</li> <li>• how clinicians and patients time can be understood as a finite resource that needs to be carefully prioritized</li> <li>• how an uneconomic growth in our societies at large relate to the current overconsumption of healthcare</li> </ul> <p>Specifically, the session will focus on how a new appreciation of human, financial and environmental resources in medicine can help forge a more sustainable healthcare.</p> <p>Chairs - Minna Johansson and Kirsten McCaffery  <a href="#">Martin Hensher</a> - <a href="#">Victor M. Montori</a> - <a href="#">Kristen Pickles &amp; Forbes McGain</a></p>					
10:30 – 11:00	Refreshment Break					
11:00 – 12:00	<p><b>Seminar</b></p> <p>Overdiagnosis: an ethical appraisal based on Principlism - <b>Theo Boer</b></p>	<p><b>Seminar</b></p> <p>How to develop a context-sensitive approach to reduce low value imaging? Discussion of a national implementation study from Norway - <b>Bjørn Hofmann</b></p>	<p><b>Seminar</b></p> <p>How a guideline recommendation can reduce the overdiagnosis of osteoporosis: An example from the Canadian Task Force on Preventive Health Care - <b>Roland Grad</b></p>	<p><b>Seminar</b></p> <p>A Perfect Storm: Expanded Disease Definitions in Alzheimer's Disease and the New Era of Disease-Modifying Drugs in Mild Cognitive Impairment - <b>Su Jin Yim</b></p>	<p><b>Seminar</b></p> <p>Sustainable healthcare starting at the GP office: a national innovation project to curb medical overuse - <b>Linn Okkenhaug Getz</b></p>	<p><b>Seminar</b></p> <p>How should we combine a patient's personal evidence with research evidence to improve the ability of findings to form diagnostic criteria that avoid over-diagnosis and predict outcomes with and without treatment to avoid over-treatment? - <b>Huw Llewelyn</b></p>

12:00 – 13:45	<p>Lunch</p> <p><b>Elevator Pitches</b> (12:15 – 12:45)</p> <p>Primary Care Quality – National quality indicators to reduce overdiagnosis and overtreatment in primary health care - <b>Susanne Steen</b></p> <p>Financialization of the United States Health Service Sector: A Conceptual Framework - <b>Jessica Andersen</b></p> <p>Preventing overdiagnosis of suspected bacterial respiratory tract infections by means of antibiotic deprescribing when antibiotic is no longer needed: General practitioners' views - <b>Carl Llor</b></p> <p>Preventing antimicrobial resistance. General practitioners' views about tailoring antibiotic duration for respiratory tract infections based on clinical stability criteria and C-reactive protein concentration when patients are afebrile and feel better - <b>Carl Llor</b></p> <p>Overcoming Overprescribing: Moving from Sick-care to Health-care with Medical Education - <b>Hamaad Khan</b></p> <p>Are Australians empowered and willing to avoid the risks of diagnostic testing and screening? A qualitative survey analysis - <b>Tomas Rozbroj</b></p> <p>What is underdiagnosis? Could it be true negative? - <b>Christoffer Bjerre Haase</b></p> <p>Optimizing utilization of hospital laboratory tests through researcher and patient collaboration - <b>Veronika Kiryanova</b></p>					
12:30 – 13:30	<p><b>ABSTRACTS</b> <b>Incentives, drivers and causes</b></p> <p>Commercialisation of Health Care: Historical and Philosophical Drivers and How to Transform them - <b>Imran Mohammed</b></p> <p>Correlations between county-level incidence and mortality for commonly diagnosed cancers in the United States - <b>Adewole Adamson</b></p> <p>Measuring prevalence and trends in low-value care using German claims data – first results</p>	<p><b>Seminar</b></p> <p>Assisted death – an area of medicalisation of death - <b>Ole Johannes Hartling, Morten Horn, Theo Boer</b></p>	<p><b>Seminar</b></p> <p>Overdiagnosis in overweight - <b>Lene Meyer</b></p>	<p><b>Seminar</b></p> <p>Overlooked aspects of laboratory testing that can lead to misdiagnosis - <b>Andrea Rita Horvath</b></p>	<p><b>Seminar</b></p> <p>Drivers to Overdiagnosis: Anthropological Perspectives on Epistemic Battles - <b>Alexandra Brandt Ryborgrg Joensson</b></p>	

	of the IndiQ-project - <b>Meik Hildebrandt</b>					
13:45 – 15:15	<p><b>ABSTRACTS Incentives, drivers and causes</b></p> <p>Adverse events as drivers of overdiagnosis for healthcare professionals - <b>Katja Schrøder</b></p> <p>Overscreening in cervical and breast cancer screening in Japan - <b>Chisato Hamashima</b></p> <p>Enablers and barriers related to quaternary prevention from a range of perspectives: A descriptive study using semi-structured interviews - <b>Maria Llargués Pou</b></p> <p>Diagnosing dying: epistemic risk and non-epistemic values in end-of-life care - <b>Lotte Elton</b></p>	<p><b>ABSTRACTS Clinical solutions</b></p> <p>Vitamin D testing overuse at a HMO in Argentina - <b>Malena Chiaborelli</b></p> <p>Using participatory co-design to develop a website to improve General Practitioners' understanding of the benefits and harms of treatments for long-term conditions: gpevidence.org - <b>Julian Treadwell</b></p> <p>Overdiagnosis and Decisional Stakes? A Family Medicine Resident Perspective on Shared Decision Making - <b>Roland Grad</b></p> <p>Why we should, and how we could, forget about OverDiagnosis and OverTreatment in the clinical encounter - <b>Vije Kumar Rajput</b></p> <p>Effect of an individualised audit</p>	<p><b>ABSTRACTS Overdiagnosis and sustainability</b></p> <p>Overuse of surgical procedures in Low- and Middle- Income Countries (LMICs): A scoping review of the extent, drivers, consequences, and solutions - <b>Loai Albarqouni</b></p> <p>Lifestyle medicine – overdiagnosis of unhealthy habits? - <b>Karina Raygoza</b></p> <p>Indicators to monitor the quality of care for low back pain in Australia: a scoping review - <b>Bayden McKenzie</b></p> <p>Environmental impacts of cardiovascular healthcare: a systematic evidence review - <b>Forbes McGain</b></p> <p>Biomedicine, overtreatment, and the potential of bio-psycho-social</p>	<p><b>Workshop</b></p> <p>Developing a Trusting Relationship at the First Encounter to Help Minimize Overtesting and Overdiagnosis - <b>Benjamin Lai, John Wilkinson &amp; David Rushlow</b></p>	<p><b>Workshop</b></p> <p>Ethical and practical issues related to a new guideline for osteoporosis in Denmark - <b>Johan Ludvig Reventlow</b></p>	<p><b>Workshop</b></p> <p>Data driving Overdiagnosis - <b>Christina Sadolin Damhus</b></p>

		and feedback intervention on rates of musculoskeletal diagnostic imaging requests by Australian general practitioners: A factorial cluster randomised trial - <b>Denise O'Connor</b>	approaches - <b>Caroline Cupit</b>			
15:15 – 15:30	Refreshment Break					
15:30 – 17:00	KN Session Six - <b>Communicating about overdiagnosis including the role of mainstream journalism &amp; social media</b> Chair - Steven Woloshin <a href="#">Raffael Heiss</a> - <a href="#">Deborah Cohen</a> - <a href="#">Helen Macdonald</a>					
17:00	Conclusions and next steps - Safe journey home					

## Monday August 14<sup>th</sup> - Wednesday August 16<sup>th</sup> 2023

### Poster Presentations

Board Number 01	Disparity in rates and severity of emergency department visits for acute allergic reactions and anaphylaxis over a decade in Calgary: Signal for Overdiagnosis - <b>Kehinde Omole</b>
Board Number 02	OverDiagnosis and Unshared Decision Making as Paradigm-constructed Anomalies - <b>Jack Dowie</b>
Board Number 03	Value-Based Medicine can eliminate Over- (and Under-) Diagnosis - <b>Jack Dowie</b>
Board Number 04	How active disinvestment impacts low value-care surgery in subacromial pain syndrome - a qualitative study - <b>Leti van Bodegom-Vos</b>

Board Number 05	Advancing de-implementation theory: the Magnitude of the Problem Conceptual Framework for Integrated Sustainability Strategies - <b>Gillian Parker</b>
Board Number 06	Prognosis, treatment decision-making and value: a qualitative exploration of provider perspectives on breast cancer genomic assays - <b>Gillian Parker</b>
Board Number 07	Engaging Family Medicine Residents to Consider Sustainable Prescribing Practices for Diagnosing and Treating Asthma - <b>Anthony Train</b>
Board Number 08	Opioid prescription patterns in general practice for people with regional musculoskeletal pain: A longitudinal primary care database study - <b>Romi Haas</b>
Board Number 09	Prioritization during a nationwide ban on non-urgent procedures – a quasi-experimental study based on Swiss hospital data - <b>Yael Rachamin</b>
Board Number 10	The impact of health literacy on consumer healthcare decision-making and methods to support conversations about overuse - <b>Kirsten McCaffery</b>
Board Number 11	The long-term psychosocial impact of screen-detected DCIS – Further support to rename DCIS - <b>Emma Grundtvig Gram</b>
Board Number 12	Overdiagnosis in non-cancer conditions: a systematic methods review of studies and application of the 'Fair Umpire' framework for detecting and quantifying Overdiagnosis - <b>Katy Bell</b>
Board Number 13	Nurses' Anxiety as a Mediator for the Relationship Between Clinical Tolerance to Uncertainty and Antibiotic Initiation in Residential Aged-Care Facilities - <b>Saniya Singh</b>
Board Number 14	Postoperative monitoring of children with obstructive sleep apnea: A case of potential too much medicine - <b>Marc Rhainds</b>
Board Number 15	'First, do no harm'. Overdiagnosis of breast cancer at mammography screening: understanding the influence of methods of communicating overdiagnosis risk on informed decision-making - <b>Kate Connolly</b>

Board Number 16	Abdominal aortic aneurysms (AAA) in Denmark: time trends in incidence, treatment, and mortality from 1980-2020 with a view to the possible introduction of a national screening programme - <b>Christina Sadolin Damhus</b>
Board Number 17	Clinical value of urine strip tests at the Emergency Department - <b>Krzysztof Hordynski</b>
Board Number 18	Evidence based summaries of diagnoses and decisions shared in writing to avoid over-diagnosis and over-treatment - <b>Huw Llewelyn</b>
Board Number 19	The environmental impact of health care for musculoskeletal conditions: a scoping review - <b>Bayden McKenzie</b>
Board Number 20	Efficacy of remote consultation between the hospital cardiologists and the primary care in the cardiovascular disease management: the "Cardiologia in Linea" project in Trentino - <b>Lucia Cainelli</b>
Board Number 21	Women's responses to proposed genetic carrier screening for cystic fibrosis in pregnancy in Denmark: A case study informed by individual interviews - <b>Louise Bidstrup Jørgensen</b>
Board Number 22
